LETTER OF INTENT

on

Commonwealth Healthcare Innovation Collaboration

Between

The Commonwealth Medical Association

and

SwiftDx

1. Purpose

This Letter of Intent ("LOI") sets forth the mutual intention of the Commonwealth Medical Association ("CMA") and SwiftDx to explore opportunities for collaboration in the areas of healthcare innovation, rapid diagnostics, oncology screening, medical education, and global health initiatives across Commonwealth nations.

The parties acknowledge the importance of advancing accessible, innovative, and scalable healthcare technologies that may contribute to earlier disease detection, improved healthcare delivery, and strengthened international medical collaboration.

SwiftDx is an emerging healthcare innovation initiative focused on rapid diagnostic technologies and innovative testing solutions.

2. Areas of Intended Collaboration

The parties intend to explore collaboration in areas including, but not limited to:

- Healthcare innovation initiatives
- Rapid diagnostic and screening technologies
- Oncology and disease detection awareness
- Medical education and knowledge exchange
- Webinars, workshops, and conferences
- Research and academic collaborations
- Innovation showcases within CMA activities
- International networking and stakeholder engagement
- Global health and equitable healthcare access initiatives within Commonwealth countries

3. Role of the Parties

CMA intends to:

- Explore opportunities to support healthcare innovation engagement
- Facilitate professional networking and knowledge-sharing opportunities where appropriate

The Commonwealth Medical Association is a non-governmental Organization whose main aim and objective is to assist and strengthen the capacities of National Medical Associations of countries within the Commonwealth to improve the health and wellbeing of their communities and countries. Registered at the above address as a Company Limited by Guarantee (No. 2812942)

• Consider participation of SwiftDx in relevant educational, academic, or innovation-focused activities
• Encourage dialogue relating to emerging healthcare technologies

SwiftDx intends to:

• Contribute expertise, innovation perspectives, and emerging technologies relevant to rapid diagnostics and healthcare innovation
• Participate in educational and collaborative initiatives
• Support discussions relating to accessible and innovative healthcare solutions within Commonwealth nations

4. Nature of this Letter

This Letter of Intent reflects the current intentions of the parties to explore collaborative opportunities in good faith.

This LOI is non-exclusive and non-binding and does not create any financial, legal, procurement, regulatory, or commercial obligations on either party.

Any future collaboration, project, or formal partnership may be subject to separate agreements and approvals by the respective parties.

5. Duration

This Letter of Intent shall remain in effect for a period of twelve (12) months from the date of signing unless extended or superseded by mutual written agreement.

6. Public Communications

The parties may mutually agree to publicly acknowledge this Letter of Intent and the intention to explore collaboration in healthcare innovation and global medical initiatives.

Signed for and on behalf of

The Commonwealth Medical Association

LETTER OF INTENT

Strategic Healthcare & Digital Health Collaboration

1. Purpose

This Letter of Intent ("LOI") sets forth the mutual intention of SwiftDx and TeleCure to explore and establish a strategic collaboration in the areas of digital healthcare, rapid diagnostics, telemedicine, AI-powered healthcare solutions, preventive medicine, and patient-centered healthcare delivery.

The collaboration aims to combine SwiftDx's innovation in rapid diagnostics and healthcare technology with TeleCure's telemedicine infrastructure, healthcare network, and digital consultation ecosystem to improve access, efficiency, and quality of healthcare services locally and internationally.

2. Areas of Collaboration

- Integration of SwiftDx diagnostic technologies into the TeleCure ecosystem.
- Development of AI-assisted diagnostic and telehealth workflows.
- Joint research and innovation initiatives in digital health and diagnostics.
- Collaboration on preventive healthcare and screening programs.
- Expansion of healthcare accessibility through telemedicine and remote diagnostics.
- Healthcare education, training, and awareness initiatives.
- Pilot programs involving clinics, hospitals, laboratories, and healthcare institutions.
- Potential collaboration on healthcare data analytics and digital health infrastructure.
- Joint participation in healthcare conferences, innovation programs, grants, and global health initiatives.

011-5557 7984

No.2 Jalan Anggerik 2/3 Taman Anggerik , 81200, Johor Bahru

3. Non-Binding Nature
This LOI is intended solely as an expression of mutual interest and does not create any legally binding obligations between the parties, except for any provisions specifically agreed upon in writing at a later stage.

Both parties acknowledge that further discussions, negotiations, and formal agreements may be required before entering into any binding collaboration.

4. Confidentiality
Both parties agree to maintain confidentiality regarding any non-public, proprietary, or sensitive information shared during discussions related to this collaboration, unless disclosure is required by law or mutually agreed upon in writing.

5. Duration
This LOI shall remain in effect for a period of twelve (12) months from the date of signing unless extended or terminated by mutual written agreement of both parties.

6. Mutual Intent
SwiftDx and TeleCure recognize the value of collaborative healthcare innovation and express their shared commitment to exploring impactful solutions that can improve healthcare accessibility, diagnostics, and patient outcomes.

SPARTAN HEALTH SCIENCES UNIVERSITY
SCHOOL OF MEDICINE

LETTER OF INTENT

On Healthcare Innovation, Medical Research, and Academic Collaboration

Between
SwiftDx
and
Spartan Health Sciences University, School of Medicine

1. Purpose

This Letter of Intent ("LOI") sets forth the mutual intention of SwiftDx and Spartan Health Sciences University, School of Medicine ("Spartan") to explore opportunities for collaboration in the areas of healthcare innovation, rapid diagnostics, medical research, digital health, medical education, and global health initiatives.

The parties recognize the importance of advancing innovative healthcare solutions, supporting medical research, and fostering academic-industry collaboration to improve patient outcomes and healthcare accessibility worldwide.

2. Areas of Collaboration

The proposed collaboration may include, but is not limited to, the following areas:

- Joint research initiatives in diagnostics, oncology screening, and digital health technologies
- Clinical validation and evaluation opportunities for healthcare innovations developed by SwiftDx
- Student and faculty engagement in innovation, entrepreneurship, and healthcare technology projects
- Academic discussions, seminars, workshops, and conferences related to healthcare innovation and medical advancements
- Exploration of collaborative opportunities involving public health, preventive medicine, and global healthcare outreach
- Support for knowledge exchange between medical professionals, researchers, and technology teams
- Potential opportunities for pilot programs, internships, or collaborative educational activities

Phones : (758) 454 - 6128, Facsimile : (758) 454 - 6811. Website : www.spartanmed.org / www. spartanmed.edu

3. Nature of Understanding

This LOI represents the current intentions of the parties and serves as a framework for future discussions and potential collaboration. It does not create any legally binding obligations unless subsequently agreed upon in a separate formal agreement executed by both parties.

4. Confidentiality

Both parties acknowledge that any confidential or proprietary information shared during discussions shall be treated respectfully and shall not be disclosed to third parties without prior written consent, except where required by law.

5. Duration

This Letter of Intent shall remain in effect for a period of twelve (12) months from the date of signing, unless extended or replaced by a subsequent agreement mutually accepted by both parties.

6. Mutual Commitment

SwiftDx and Spartan Health Sciences University, School of Medicine express their shared commitment to exploring meaningful collaboration opportunities that contribute to innovation in healthcare, medical education, and research development.
